Valley Medical Moorpark Lab. Clinic,
Valley Medical Hospital et al,

I have been a patient at Valley Medical Hospital since 1976 to 2008 when needed I was assigned to the Moorpark Clinic. Approx 2000 blood test were ordered by my primary Caretaker ^{Dr.} Ginger Rohinger at Moorpark Clinic and also ordered by Dr. Kevin Nuygen also of Moorpark Clinic the blood test ordered by both Doctors were done at Moorpark Clinic Lab located in San Jose, California, Phone 408-885-5000. I was told by both of the above mentioned Doctors that each blood test showed I was positive Hep-C I was shocked and so disappointed knowing my whole life would be changing and it did from 2001 until I moved here Little Rock, Arkansas I have several blood draws from different hospitals, Clinics each test shows I don't have Hep-C or any blood diseases

This case assigned to District Judge 
and to Magistrate Judge 

The wrong information I recieved
from Valley Medical Clinic, Lab.
has caused me to go through emotional
Worldwind, affected my and all persons/
relationships, how I had to interact
with my Children and family and it
put the Chance of marriage out
of the question, many sleepless nights
countless tears yes I do feel justified
in filing this claim
my Valley Medical record number. 50457989
and yes I do have the copies
from Valley Medical and also the
copie that shows I don't have
the blood disease

Thank you
Nancy Johnson
